PROFESSIONAL SUMMARY

Frontend Engineer with 5 years of experience crafting responsive, production-grade web applications. Specialized in component-driven architecture, resilient state management, and performance-first UI engineering. Adept across modern data fetching patterns (**Redux Toolkit, TanStack Query**), web accessibility standards, and testing (**Jest, React Testing Library**) to deliver fast, scalable user experiences in fast-paced Agile environments.

SKILLS

Frontend & Frameworks: React.js, Next.js, JavaScript (ES6+), TypeScript, Tailwind CSS, HTML5, CSS

Core Web: Responsive Web Design

State & Data: Redux Toolkit, TanStack Query, REST APIs, Zod

Testing: Jest, React Testing Library

Optimization: Web Accessibility (ARIA), Performance Optimization, Cross-Browser Compatibility

Tools & Practices: CI/CD, Git, Vite, Agile/Scrum

WORK EXPERIENCE

Experience Engineer L2 (Frontend Engineer) | **Publicis Sapient** | Gurugram Sep 2021 – Present

- Owned and developed key customer-facing modules for large-scale enterprise web applications, focusing on clean frontend architecture, cross-browser consistency, and responsive design across desktop and mobile.
- Built reusable, modular UI components and maintained shared design system patterns to speed up feature development and keep visual branding consistent.
- Handled complex client-side state for dynamic search flows, managing debounced user inputs, background API calls, caching strategies, and graceful UI error states.
- Optimized frontend performance and Core Web Vitals by auditing bundles, setting up lazy loading, and code-splitting heavy modules, reducing initial page load times by 30-35%.
- Collaborated closely with backend teams to integrate REST APIs, handling data transformations, async state, and edge-case error scenarios to ensure smooth user interactions.
- Worked directly with UX designers to turn Figma specs into accessible interfaces, wrote unit and integration tests using Jest and React Testing Library to maintain high code stability.
- Managed daily task workflows and user stories in **Jira / Azure DevOps**, actively participating in sprint planning, estimations, and retrospectives while conducting peer code reviews and maintaining technical documentation in **Confluence**.

PROJECTS

CryptoX | Cryptocurrency Analytics & Portfolio Tracker | [GitHub](#)

Tech Stack: React, TypeScript, Redux Toolkit, TanStack Query, Recharts, Vite, Tailwind CSS

- Architected a crypto tracking platform using a feature-based folder structure (features/, services/, redux/), integrating CoinGecko APIs for real-time market data.
- Combined Redux Toolkit for global client state (watchlist, portfolio) with TanStack Query for background refetching and API caching.
- Built dynamic, multi-timeframe price charts (1D, 7D, 30D, 1Y) using Recharts with responsive data formatting and error fallback UI.

OpenAero | Interactive Weather & Map Platform | [Live](#) | [GitHub](#)

Tech Stack: React, TypeScript, TanStack Query, Zod, Leaflet, MapTiler, Tailwind CSS

- Developed a real-time spatial weather application featuring interactive map layers built with Leaflet and MapTiler SDK.
- Implemented strict runtime API response validation using Zod alongside TypeScript to guarantee type safety across external weather payloads.
- Built accessible UI components using Tailwind CSS v4, shadcn/ui, managing server state via TanStack Query.

OrbitShop | E-Commerce Platform | [Live](#) | [GitHub](#)

Tech Stack: React, Redux Toolkit, React Router v7, Firebase Auth, Jest, React Testing Library, Tailwind CSS

- Built an e-commerce application with product listing, cart management, and client-side routing using React Router.
- Integrated Firebase Authentication for user login/logout flows, with global cart and product state managed via Redux Toolkit.
- Set up a component testing setup using Jest, and React Testing Library to validate key UI interactions.

EDUCATION

Bachelor of Technology, Computer Science & Engineering

Neotia Institute of Technology Management & Science, Kolkata, West Bengal

August 2013 - June 2017

CERTIFICATION

Next.js Certification – **Publicis Sapient**

Frontend Developer ([React](#)) – **HackerRank**

JavaScript ([Intermediate](#) & [Basic](#)) - **HackerRank**
